Your money should manage itself.

An financial tracker & manager

TRACK → UNDERSTAND → PLAN → ACT

The solution: a financial manager, not just a financial tracker

1

TRACK

Automatically record income, spending and recurring expenses.

→

2

LEARN

Understand personal spending patterns, priorities and constraints.

→

3

PLAN

Recalculate budgets as circumstances change.

→

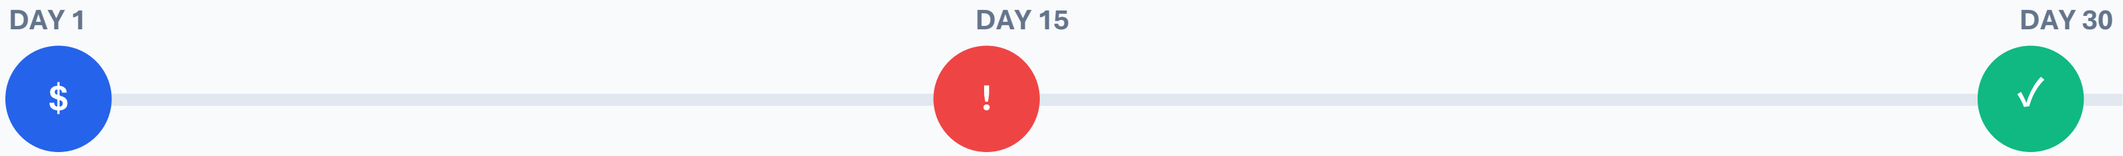

4

ACT

Recommend realistic actions, including where to spend remaining money.

It continuously turns financial data into a next-best action.

Example: Day 15 of a $3,000 monthly budget

Budget

$3,000

Starting monthly limit

Spent

$2,000

67% of budget in 50% of month

Response

$1,000

Replan remaining days + protect essentials

Instead of: “You are overspending.”

It says: “Here is how to finish the month.”

Dynamic budgeting: the budget changes with you

WHAT THE SYSTEM SEES

1. Current balance
2. Past spending patterns
3. Recurring / essential costs
4. Days remaining
5. Upcoming planned expenses

PERSONALIZED PLAN

Remaining budget

$1,000

Essentials reserved

$600

Flexible spending

$400

Daily flexible limit **≈ $27/day**

The system adapts the plan—not just the warning.

It also answers: “Can I afford this?”

USER NEED

“I need clothes urgently.”

Budget left: $400 flexible

Essential costs: $600

CHECKS

- ✓ Remaining budget
- ✓ Upcoming essentials
- ✓ Typical spending
- ✓ Purchase urgency

Safe spend range

$80–$120

RECOMMENDATIONS

Option A **$79**

Within target

Option B **$95**

Best fit

Option C **$110**

Still affordable

Recommendations can be based on price, location, preferences and remaining budget.

Where this can grow

1

Personal finance

Budgeting, cash-flow planning, purchase decisions

2

Smart recommendations

Deals, merchants, subscriptions, alternatives

3

Financial agents

Automated actions with user approval

4

Long-term finance

Savings, investing and broader financial planning

Start with everyday spending. Build toward an intelligent financial operating system.

Don’t just track your money.

Optimize it

TRACK • UNDERSTAND • PLAN • ACT
